

THE DIGNUMS

YOUR SUPER SWANKY HANDMADE FOLIO ALBUM

HAND-BOUND AND USING THE FINEST QUALITY COVER MATERIALS, PAPERS AND INKS

LIE FLAT PAGES WITH INVISIBLE CENTRE CREASES

A MASSIVE CHOICE OF COVER MATERIALS, COLOURS, AND PERSONALISATION OPTIONS

HOW IT WORKS - FIRST THINGS FIRST

The first thing to do, if you haven't already, is to either let us know you'd like an album, or purchase a deposit credit via your online gallery.

We also offer 'off the peg' albums too direct from your online gallery. With these you design your layout and book yourself. Cover colours and materials are limited on these though, so if you want to pick from the full range you'll want to opt for our bespoke design service.

SIZE MATTERS

There's three sizes to choose from:

8X8"
£670

10X10"
£740

12X12"
£860

All albums include 15 spreads (30 sides) as standard. If you'd like even more pages we can add these for you on request.

MAKE IT YOURS

Cover Text Personalisation

Your chosen text can be positioned on the front of you album on all cover materials. You get to choose from the following styles. Particular styles can sometimes suit certain cover materials and colours better than others, if this is the case we'd let you know based on your choices.

-Cover Printing-

Folio can directly print on to most of our materials in either black or white ink. Your cover text will be printed in the optical centre of the front cover in the case supplied on your order.

-Laser Engraving-

Using a highly accurate laser Folio can digitally engrave your text on to the cover. The whole process reminds us of something from James Bond, and works by removing the top layer of the material. This has the effect of revealing the natural hues of the material underneath or changing the colour to create a pleasing effect.

Your cover text will be engraved in the optical centre of the front cover in the case supplied on your order.

-Blind Debossing (aka embossing/blocking/imprinting)-

Some might call it blind blocking or stamping. Using traditional methods, Folio imprint letters into the cover without ink or foil for an elegant, classic presentation.

Your text is imprinted in the optical centre of the front cover in uppercase. Folio offer two fonts to choose from, Helvetica & Coronation . You have two lines of text to play with and there is a physical limit to the number of characters.

-Foil Debossing (aka embossing/blocking/imprinting)-

Like debossing, letters are imprinted into the material; however hot metal is used to press metallic foil in to the indentation. You have two lines of text to play with and there is a physical limit to the number of characters.

ROUNDING OFF

Endpaper Colours

There is an end paper page at the start and beginning of your album. You can choose from these colours, to either tie-in, or contrast with your cover or images.

Please note the on-screen swatches are an approximation and may vary from the actual material colour.

MULTIPLE CHOICE

How do we make our selections?

Once your album deposit has reached us we'll send you an online form with all the above album options for you to choose from. We'll also send you a link that will allow you to selection the photos from your online gallery that you'd like to be included in your gallery. We then design a bespoke album layout to compliment your choices.

FINAL CHECKS

How do we view our design before our album is printed?

We upload your design to an online proofing system. This lets you browse through you album to check everything looks great. You get a round of changes should you want them. The online proofing lets you make comments on each page so we know what to change around for you.

Once you're happy you can pay the remaining balance, and we send the design off to Folio Albums. Once they've finished printing and hand crafting everything it delivered direct to your door!
